

# GREEN STAR SPORT

## GREEN LINE for sport

**Green Star Sport** is ideal for the construction of new sports facilities. This mixture of *Lolium perenne* and *Poa pratensis* establishes quickly giving a dense and resistant turf thanks to the strong root growth in the early stages of turf development.

### CHARACTERISTICS

- Produces a fine, dense turf
- Tolerant of low cutting
- High resistance to diseases
- Excellent wear tolerance
- Bright color all year round

**Seeding rate**

30 gr/mq

**Cut height**

2/4 cm

**Period**

From February to November

**Poa Pratensis Aviator II**  
20%

**Lolium Perenne Greenway**  
40%

**Lolium Perenne Esquire**  
40%

**Packaging Kg. 10**

**AVIATOR II** Kentucky bluegrass is a new release from Columbia River Seed and Novel Ag. It brings improved turf quality with increased seed yield. **AVIATOR II** offers improved resistance to dollar spot and other diseases. This variety has competitive growth and has superior ability to repair itself. **AVIATOR II** also offers quick establishment, dark green color, early spring greenup and excellent seedling vigor.

**AVIATOR II** blends well with other Kentucky bluegrasses. It also mixes well with fine fescues and perennial ryegrass.

**FACTS:**

- Quick Establishment
- Excellent Seedling Vigor
- Early Spring Greenup
- Dark Green Color
- Good Density During the Growing Season

**APPLICATIONS:**

- Residential Lawns
- Commercial Properties
- Sod Farms
- Golf Courses
- Sports Fields

**SEEDING RATES:**

- New Establishment: 3-4 LBS/1000 sq. ft.
- Overseeding: 1-2 LBS/1000 sq. ft.
- Estimated Seeds per Pound: 1,100,000

**Lolium Perenne**

- Very best wear tolerance
- Very high shoot density
- Fantastic persistency
- Very high rust resistance

### Very Best Wear Tolerance

The very high shoot density combined with the very good recovery of Greenway makes it an obvious choice also for sports areas. Especially the summer wear tolerance is extremely high.

### Very High Shoot Density

In the official trials in France Greenway came out as one of the very best varieties with regards of shoot density. This was repeated in the STRI trials in UK.

### Outstanding Rust Resistance

Rust attack is one of the severe diseases in perennial ryegrass, but do not worry - Greenway can beat it!

**Technical Specifications**

- Perennial ryegrass
- The Natural Way for Greening Up
- Listed/recommended in EU DE DK FR TR UK

### Perennial ryegrass

Convincing by Performance!

- Dark green colour
- Multi-resistant
- Very fast in establishment
- Combining density and wear tolerance

### Ratings

### Brilliant Future

ESQUIRE is one of the few varieties needing hardly any promotion. Since we started dispatching of seed for private trials we have had a very high positive feedback. Esquire's "field" performance is highly convincing!

### Multi-Resistant

ESQUIRE resists well to winter damage and is tolerant to the majority of diseases of importance in the European Union and in North America; rusts, leaf spot, red thread and dollar spot.

### First Out of Starting-Blocs

ESQUIRE takes off very early in spring with an impressive density. This explains also a very good wear tolerance. This is combined with good summer appearance and leaf fineness above average.
